- HomeAgain Microchip
- 1 Dose of Pain Medication
- Laser Treatment after spay or neuter

Cost: \$830.00 females
\$715.00 males

Savings of over 15%, compared to individual procedures.

Agreement:

You are responsible for all medications except as noted in the program.

You must adhere to the program schedule. (Program is complete at 6 months of age.)

Vaccinations and physical exams will be given at 3-4-week intervals. *Variances may cause a decrease in the level of immunity your animal receives.*

Mountain View Veterinary Hospital is not responsible for any variances in the program created by missed appointments.

Vaccinations and physical exams are to continue until the kitten over 14 weeks old.

Vaccinations will include Feline Distemper, Upper Respiratory, Feline Leukemia, and Rabies.

Spay or neuter must be performed prior to 6 months of age or additional charges will be added (unless advised against for a medical reason by the doctor).

1 dose of pain medication will be administered on the day of your pet spay or neuter surgery.

HomeAgain Microchip may be given at the time of spay or neuter.

This program does not include confirmatory Leukemia and/or Feline Immunodeficiency Virus testing if the kitten is positive on the screen.

This program is complete when the pet reaches 6 months of age. Unused portions of the program are non-refundable.*
